

APPENDIX K: Emergency Preparedness and Response

Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver

Temporary or Emergency-Specific Amendment to Approved Waiver:

These are changes that, while directly related to the state's response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.

[Specify the services.]

j. X Temporarily include retainer payments to address emergency related issues.

[Describe the circumstances under which such payments are authorized and applicable limits on their duration.

Retainer payments are available for habilitation and personal care only.]

Permit an additional three 30-day periods of retainer payments, retroactive to January 2021, for all habilitation programs (both residential and day supports) that include personal care to ensure continuous operations and sustainability of waiver services. Each episode of retainer payments may not exceed 30 consecutive days. DDS CT is choosing to utilize multiple 30-day retainer payment periods, with a limit of three. These three 30-day periods are in addition to the initial three 30-day retainer payment periods contained in the Appendix K amendments to these waivers approved by CMS on November 5, 2020 (CMS Amendment Control Numbers CT.0426.R03.05, CT.0437.R03.04 and CT.0881.R01.05).

The guardrails DDS CT will put in place include:

- Collect an attestation from the provider acknowledging that retainer payments will be subject to recoupment if inappropriate billing or duplicate payments for services occurred (or in periods of disaster, duplicate uses of available funding streams), as identified in a state or federal audit or any other authorized third party review. Note that “duplicate uses of available funding streams” means using more than one funding stream for the same purpose.
- Require an attestation from the provider that it will not lay off staff and will maintain wages at existing levels.
- Require an attestation from the provider that they had not received funding from any other sources, including, but not limited to, unemployment benefits and Small Business Administration loans, that would exceed their revenue for the last full quarter prior to the PHE, or that the retainer payments at the level provided by the state would not result in their revenue exceeding that of the quarter prior to the PHE.

1. If a provider had not already received revenues in excess of the pre-PHE level but receipt of the retainer payment in addition to those prior sources of funding results in the provider exceeding the pre-PHE level, any retainer payment amounts in excess will be recouped.
2. If a provider had already received revenues more than the pre-PHE level, retainer payments are not available.

- Providers will qualify for retainer payments based on DDS' guidelines. These guidelines shall not conflict with the CMS guardrails delineated in the Appendix K.

DDS will pay retainer payments directly to waiver service providers. DDS will then submit the matching units paid as retainer payments to the MMIS. Retainer payments will be based on the difference between authorized units for the 30-day retainer period vs actual utilization for the same 30-day period. More specifically, DDS authorizes services in advance, and each individual is authorized a specific amount of units per month. DDS compares that amount to actual utilization for purposes of determining the retainer payment. For example, if an individual was authorized 100 units per month of a service eligible for retainer payments, and only used 65 in a particular month due to COVID restrictions, DDS would bill the unused 35 units as the retainer payment.

DDS will ensure no federal relief funds were used for the units being submitted to the MMIS for the retainer payments. DDS will maintain a record of all active authorizations for the retainer payment period and a record of all utilization in DDS' internal utilization system (WebResDay).

k. ___ Temporarily institute or expand opportunities for self-direction.

[Provide an overview and any expansion of self-direction opportunities including a list of services that may be self-directed and an overview of participant safeguards]

l. ___ Increase Factor C.

[Explain the reason for the increase and list the current approved Factor C as well as the proposed revised Factor C]

m. ___ Other Changes Necessary [For example, any changes to billing processes, use of contracted entities or any other changes needed by the State to address imminent needs of individuals in the waiver program]. [Explanation of changes]

ⁱ Numerous changes that the state may want to make necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
